Summary

A highly motivated IT professional with a foundational knowledge of **system administration** and specialization in **ERP development** and **technical support**. I have a proven track record of driving technology solutions to enhance business operations. In my current role at Quazi Abedin Tex Limited, I am a key contributor to the development of the company's ERP system and the optimization of IT infrastructure. My previous experience at Anila Trading Corporation provided a strong foundation in managing IT systems and troubleshooting technical issues. I am skilled at streamlining business processes and ensuring system reliability.

Experience

IT Officer | Quazi Abedin Tex Limited (QATL) *Savar, Bangladesh | 2024–Present*

- Key contributor to the development of the company's ERP system, providing support to **all departments** to streamline operations and improve efficiency.
- Provided comprehensive IT support for the organization's technology infrastructure, including hardware, software, and network systems.
- Optimized IT infrastructure and administrative processes, resulting in a measurable **reduction in paper use and decreased downtime** for authorization.

IT Officer | Anila Trading Corporation *Dhaka, Bangladesh | 2023–2024*

- Managed and provided comprehensive IT support across the organization.
- Monitored system performance and managed basic network infrastructure to implement preventative measures for a reliable IT infrastructure.

Education
